

J-Spray 50

Spray Adhesive

J-Spray 50 & 50ca** are industrial-grade aerosolized adhesives in a portable spray system. **J-Spray 50 & 50ca** are formulated to adhere protection courses, drainage composites, insulation, air and vapor barrier membranes, waterproofing membranes, and thru-wall flashings to a variety of substrates. They contain no chlorinated solvents and offer an excellent alternative to methylene chloride-based products. **J-Spray 50 & 50ca** provide a fast and economical solution to most building envelope component adhesive requirements.

*NOTE: Spray Guns come with gold spray tip included. **NOTE: J-Spray 50ca is for California only. Silver spray tips sold separately for J-Spray 50 only.

FEATURES

- ◆ Quick dry time
- ◆ High temperature resistance
- ◆ Very long working time
- ◆ Aggressive grab tack
- ◆ No clean-up or maintenance
- ◆ Can be used as a primer or adhesive
- ◆ Excellent adhesion to a wide variety of substrates
