January, 2022

**RE: JDR Enterprises, Inc. – Recycled Content for Drain Core and Fabric**

Please accept this letter as verification as to the material content of our drain cores and fabric:

**J-DRain Green Roof System (GRS) drain core** is 50% post-consumer recycled polypropylene material. The drain core is manufactured and assembled in Madison, GA.

**J-DRain 400RB & GRS50 drain core** is 50% post-consumer recycled polypropylene material. The drain core is manufactured and assembled in Madison, GA.

**J-DRain 150, 200, 400, 500, 700, 900 & Turfcore Series drain core** is 50% post-consumer recycled polypropylene material. The drain core is manufactured and assembled in Madison, GA. Excess core material is reground and used again in the manufacturing process. J-DRain 400 Series rolls are 4' x 50' and weigh 40 pounds.

**J-DRain 300, 302, 1000 Series drain core** is 100% post-consumer recycled polyethylene material. Additionally, any excess core material is reground and used again in the manufacturing process. J-DRain 300 Series rolls are 4' x 75' and weigh 70 pounds.

**J-DRain Site Water Drain (SWD) drain core** is 50% post-consumer recycled polypropylene material. The drain core is manufactured and assembled in Madison, GA.

**J-Drain MVP drain core** is 50% post-consumer recycled polypropylene material. The drain core is manufactured and assembled in Madison, GA.

JDR Enterprises, Inc. manufacturing plant, where the GRS, 400RB, 300, 302, 1000, 400, 700 900 Series, SWD and MVP drain cores are manufactured and assembled, is located at 1630 N. 5<sup>th</sup> St., Madison, GA, 30650. The manufacturing plant is approximately 85 miles from Atlanta, GA.
